We are of course proud of the success of our business and continue to act as a reliable partner of the baking and confectionery industry. Our strength: tailor-made solutions that meet your specific requirements.

From cocoa and chocolate to croquant, pastes and fillings – we have all the ingredients you need for your very own products and specialities. In addition, we would be delighted to share our know-how, experience and creativity to assist you in developing your own product range. Together, we can write the success stories of tomorrow. You need something special: **KESKO has it!**

## From bean to heavenly treat

# Our chocolate products

We can look back over many years of close cooperation with industry leaders in chocolate production. We are for instance one among very few companies in Germany who still produce various cocoa masses for chocolate directly from raw cocoa.

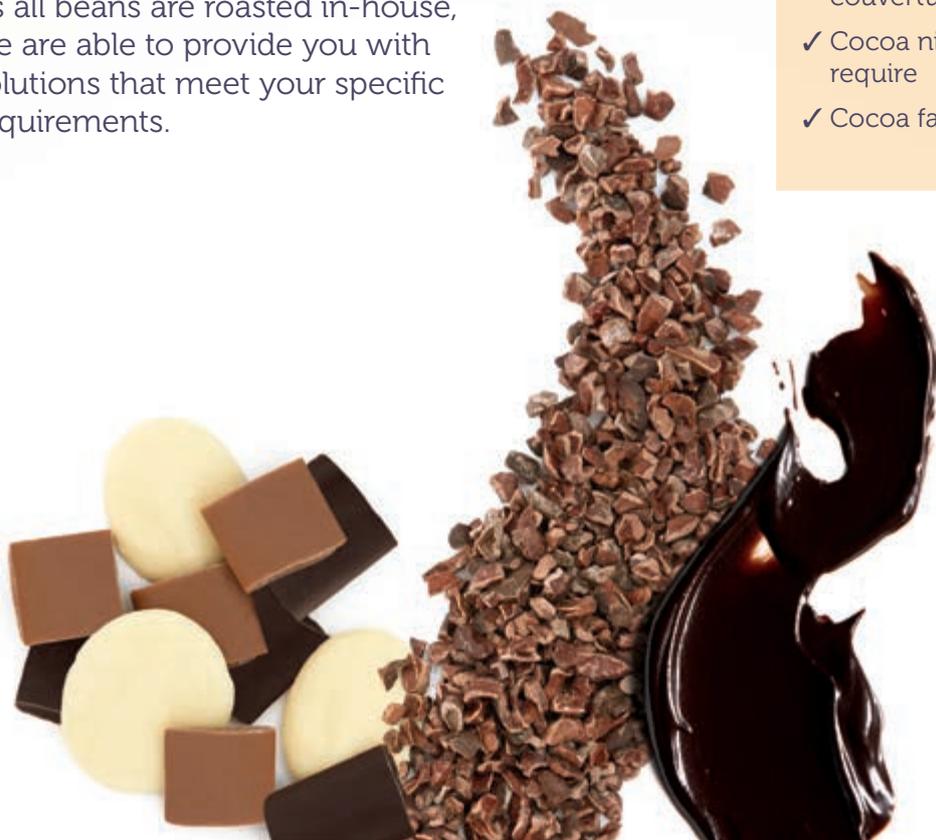

**For this purpose,** the beans are shipped directly from the country of origin to Bonn in Germany where they are processed without delay. As all beans are roasted in-house, we are able to provide you with solutions that meet your specific requirements.

### Your advantage: variety

We offer everything that can be produced from cocoa beans:

- ✓ Cocoa butter, chocolate couvertures and creams
- ✓ Cocoa nibs in any size you require
- ✓ Cocoa fat glazes

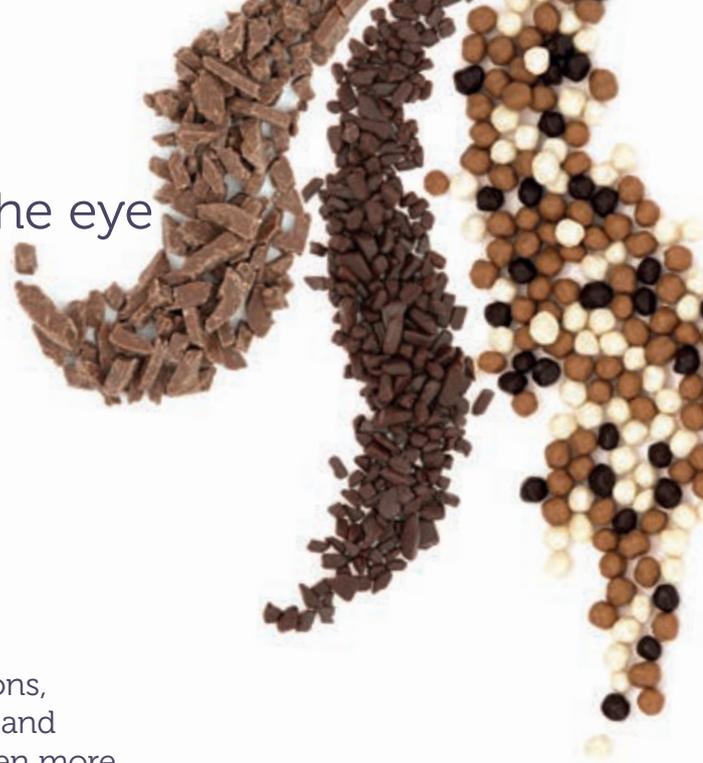

# Delicious decorations that catch the eye

## Decorations galore

Thanks to the KESSKO sugar-coating technology developed over decades, you can choose from a wide range of decorations made specially for you. **Just let us know the size, colour, consistency and flavour of the decoration you need and we will produce it.**

With KESSKO solutions, your cakes, biscuits and cookies become even more eye-catching and delicious.

### Your advantage: on-demand recipes

- ✓ We process many different nuts and kernels
- ✓ Choose your mix of sizes
- ✓ Classic croquant made from hazelnuts/almonds or free of nuts
- ✓ Special products made with honey, cocoa and fruit

## Croquant and caramel crispies

# Full-bodied flavours and customised recipes

At KESSKO, all croquants are roasted according to traditional recipes in a copper pan over an open flame, which gives them the distinctive taste people are looking for.

To enhance your creations with chocolates, glazes, coatings and fillings that give them that extra bite, look no further than KESSKO caramel crispies and butter-caramel crispies, also available as organic or Fairtrade products.

# Deliciously soft or suitable for baking

## Great fillings for your creations

Do you require soft and sumptuous fillings for your chocolates, truffles or confectioneries? Or are you looking for fillings suitable for baking? KESSKO develops solutions based on your recipes.

Among our best-sellers are **ready-to-use** masses supplied in handy buckets: try our truffle mixtures, or our signature baking masses with persipan, poppy seed or marzipan. We also offer traditional custard as well as hazelnut and poppy seed fillings in powder form. KESSKO is known for its excellent chocolate and nougat creams – for baking or as soft fillings.

## Confectionery and ice cream

# Special pastes from KESSKO

KESSKO develops pastes for any use and taste. Our premium mocha pastes are for instance made from **top-quality roasted coffee beans**.

For our richly flavoured nut pastes, we process hazelnuts, almonds and many other kernels. When it comes to caramel pastes, we offer you any consistency and flavour you require.

### Your advantage: customised solutions based on your recipes

- ✓ Paste bases made from cocoa butter or other vegetable fats
- ✓ Wide range of mocha pastes made from carefully selected coffee beans and blends
- ✓ Nut pastes made from pure nut pulp, roasted to your taste
- ✓ Caramel pastes produced according to your own recipes
